Dear Captain

We just received formal confirmation about no availability of LSIFO, we'll coordinate in future call.  
brgds

Good day Italo and Master,

Have once again spoken with bunker supplier and low sulfur will not be available. Barge containing the high sulfur and MGO is expected to be alongside the vessel at 2200 hrs tonight.

Brgds,

Dear Captain

Your vessel is in a spot trade, we don't know if next voyage will be in USA.

Once we have more information will check and coordinate.

Good Day,

Understand from agents that they are unable to provide lsfo bunker here.  
Based on vessel's r.o.b vessel can sail out with current lsfo bunker, but will not be able to call us  
port again unless bunkered in brazil.

This is for your information and appropriate action.

Best Regards,

Capt. A.O. Sreenarayanan
